Experience

Web Developer | LMU Loyola Law School | Los Angeles, CA | Aug 2023 - Present

- Primary developer (85% of the work on a 2-person team) for 25 sites: Drupal and WordPress on Pantheon plus the main lls.edu TerminalFour site; 2 new builds in progress.
- Built the custom LMU WordPress theme for consistent branding across LLS WordPress sites.
- Co-built a Node.js/React app on AWS (containers, database, Route 53, S3) that serves a shared global header and footer, piloted on 1 site and rolling out to 25.
- Rebuilt the LLS Tech WordPress site (tech.lls.edu) with better navigation and a filterable Classrooms page; traffic up 40%.
- Built Drupal apps: Anonymous Submission Tool (ast.lls.edu) with a custom Views module, a Tech Maintenance tracker, and a Campus Directory syncing ~200 profiles daily via Cron.
- Supported Drupal 7 to 10 migrations; lead upcoming Drupal 11 upgrades and rebuilds of the last 2 Drupal 7 sites (Composer, Terminus).
- Integrated SimpleSAMLphp SSO and TouchNet payments; built a 12twenty events slider.
- Rolled out Siteimprove across all 25 sites, adding sitemaps and a custom Drupal module that indexes SSO-protected pages; manage 3 AWS Lightsail instances and SSL renewals.
- Create Loom video tutorials and how-to posts on tech.lls.edu; train faculty, students, and staff across Career Development, Conferences & Events, Finance, and Faculty Support.

Web Developer Intern | Push10 | Sep 2022 - Apr 2023

- Built custom WordPress content blocks from Figma designs (PHP, SCSS, JS; Docker, Lando, Pantheon); maintained and debugged existing client sites.
- Led cross-device QA on Amberton University's redesign for responsive, on-spec builds.
